

A 3-Pronged Strategy for Student Achievement (An Educational Model of Inward Journeys Consulting)

Our 3-Pronged Strategy for Student Achievement is a comprehensive, research-based, and practical model for promoting student achievement among learners.

Inward Journeys Consulting has identified the following three key ingredients that lead to student success: Parental Engagement, 21st Century Teaching & Learning, and Developing Agency in Students. All of these components of our *3-Pronged Strategy for Student Achievement* are grounded in an ethic of care.

This foundational model undergirds our work as we partner with parents, teachers, school leaders, schools, and community-based organizations to improve the quality of K-12 education.
